Harry Hoss vs the Baltimore & Obic Railread company. This is a summops in traspess in which the plaintiff c'aims \$5,000 damages. The facts which led to the action are as follows On February 4, 1903, Mess-s Trexler Brothers, of Marklesburg, Huntingdoo county, shipped a stallion from said piace to Pennsboro, W. Va Mr. Hess, of Marklesburg, role in the car to properly care for the horse. The car was filled with hav and straw. At Grafton, W. Va., the car was shifted from our track to another for the pur prse of connecting with the train which was to take it to Pennsboro. During the shifting, which took place at night the trainmen, it is alleged by Mr Hess, sit fire to the straw near the door of the car and before he was ablto escape he was badly burned and was under the care of a physician for more than six weeks. He further alleges that as a result of said i furies he has not been able to do a 'uil day's work | time. Miss Dacker retired about 10:30 since then. Hayes H Waite, E q , of o'clock last night. teresting and inspiring. The discourse follows: Lord, in the light of Thy countenance In Thy name shall they rejoics all the work for the company between Irwin day; and in Thy righteousness shall and Turtle Creek, with headquarters they be exalted." Psalm 39:15-16. In an address to young men George Cookman once said: "If a map of the

world and of the stream of time were

placed before me, and I were asked it what part of the world's history would like to live, I would say, 'Le me be a young man in the United States of America in the nineteenth century." He might have said: "Le me be a young man anywhere in the nineteenth century." Almost everywhere there have been the largest penings of providence for progress in all things great and good. But let unow beyond the nineteenth century tieth century. We live in the midst of its crowded years, its years of marvelas well as in all things amall and vile.

A young man standing before its open loors may well thank God for life and strength in such times, especially if h stand in this free land. For while every land rejuices in its progress, in the spread of light and knowledge, the one thing in which every American finds reason for manly pride is his personal freedom. Not the boasted growth of great cities, the great increase of population, the rapid development of the country in material resources, but the fact of a real political independence. The liberty on whose boly shrine our patriotism is ever casting her brightest jewels is no sham. It is no invention of political trick sters to cheat us with the mere show

of freedom. It is no glittering goddess dressed up for the occasion. It is a sublime fact, a glorious reality. It is a liberty of conscience and of thought, of voice and of vote. It is a liberty closely related to everything we hold dear in our religious, domesright. It inherer in wur national life. Being American citizens, we must be free. We could not be slaves if we

ter-woven in our constitution that the one cannot exist without the other. Of all these things we might speak today, and find in them abundance of prominent and highly respected Hunt- material for thanksgiving to Almighty Ond. But we have no time for a jour ney around the world to study the progress of the nations. Nor can we fol low the possible results of our own national freedom. Let us study princi ples rather than results. These are

more worthy of our time and thought than the fruits whose sweetness wo tasie today. To all true progress, the accomplishment of all permanent good, these principles hold a double relation. The are not only the roots of the tree, the source of strength and nourishmen: but they are as the foundation of building, supporting walls, columns and contents, thus becoming the secu rity of all the good which the passing years have developed. Hence the thought we would illustrate is: The irfluence of Christianity on all trus

progress, believing that in righteonsacsa they have been established. I am fully aware that the claim the church that Christianity has made modern civilization its debter is denied. The church does make this claim. Glorving in the progress of these wonderful years, she claims that her principles are the source and foundation in the past, as they are the only security for the future, boldly declaring that "the nation that will not surve Zion shall perish." She appeals to the records of the past to testily to the truth of her claim. frankly admit that if our religion has not made civilization its debtor, if it is not the result of the pure teaching of Jesus, the elevating power of Ho gospel, then we are following a phan

tom, and are being guided by an oracle whose utterances are as equivocal as those of Delphi. In these days it is very common for writers for transient magazines, and the editors of papers having a nondescript theology, men (and sometimes women) whose investigations are often more pert than patient, it is common for these, with now and then a man who lays claim to more patient thought, to deny the asserted infinence of religion in moulding our destiny, and to decry the claim that the religion of the despised Nazarine has been the engine drawing the car of progress freighted with blessings for the world. They attribute ail progress to the ac-called "advanced thought" of the age, to the power of the press, to the training of he school room. But the really great

thinkers, the men of patient investiration, who base their conclusions on the logic of facts, though some of them race both in social and religious life. l have no disposition to detract from

That paper is owned and controlled by Mr Morgan. Mrs Melda Dincen, sisters of Mr. S. J. It also shows that all the talk about Wall street and the Morgan interests being opposed to Roosevelt will no longer go down the throats of a hitherto over-eredulous public. They are all tagether now in one happy band of con mercial freebooters and Bashi Ba zauks, and it is singularly unfortunate hat Senator Corman's leadership in the senate has failed completely to get the Democrats in that body to refuse absolutely to have anything to do with the new opera bouffe republic and deleat any treaty that may come before it for ratification. The man who votes ia the senate to ratify a treaty with this Roosevelt-made republic will find companied by her sister, Miss Edith himself confronted with the charge of Knontz, who will spend a year with endorsing a dishonorable action. It is generally conceded that the

last year will suffice to give them this information. In one of the congress sional districts that was Democratic

the Democrats nominated a man named De Witt Clinton Flanagau, a man of wealth, refinement, culture and social distinction. He represented only those things that Re publicans like and of which they are not afraid. He was indersed by Grove Cleveland, who lives in his district, and who made a speech for him, the first he had made since his retirement from the presidency. Notwithstanding all this

and the further fact that Mr. Flanagan

spent large sums of money, he was defeated. On the other hand, in another dis trict that was normally Republican by about 4,000 majority, and in which the Republicans nominated the millionaire thread manufacturer, Barbour, and in which the Democratic nomination went begging, the Democrats won a splendid victory. After the nomination in this district had been declined by a number of Democrats, a young Democrat named Willian Hughes, a lawyer without money, but with character and brains

and real Democracy, accepted the nomination as a matter of party honor He announced from the beginning of the campaign that he had no money with which to buy votes, and said he did not want a vote that had to be pur chased. He also said that if he were Panama Canal company when a treaty elected it would mean a real Democrat with the new opera bouffe republic is ic triumph and a slap in the face of ratified by the senate and by the powmonepoly and trust domination and the ers governing the secession republic of rule of the predatory rich. He roundly dencunced all those things from start to finish of the campaign, and the result was that he was elected by the

honest men of the district by 3,900 majurity, a change of 8,000 votes in the That should teach the Democrats of the country that if they hope to carry the state of New Jersey in the nex presidential election they must nominate a man for president who stands for the things and the kind of Demce racy that "Billy" Hughes stands for or they may as well hang their harp or willow tree. A look over the field of men mentioned for the nomination on the Democratic ticket will discover !

The former, with fine sarcasm and pungent witti cums, made the Republicans squirm in their seats while he hauled them over the coals and cast the horoscope of the Democracy Mr Clark prefaced his remarks by saying he believed it the first duty of a Democrat to con gratulate the Republicans that light was breaking in on them Referring to the rule cutting off amendments to the bill under discussion, he said the probability is that the Damocrats will control the next house and elect the next president "The more of those iron clad rules you ram down our throats the more you will have rammed down yours" Turning to the Cuban bill, he emphatically declared that the Repub licans could not pass the measure with out the Democratic vote in the house He quoted what he designated "Re than the Philadelphia Record publican battle cries" 'Your Uncle Mark invented Let well enough alone He afterward converted this into 'Stand pat,' and then the able chairman of the

the Use of the Church?" CHIEF FUNCTION

Is to Incite Mankind to Progress by Lend ing in the Thought of the World and Preaching the Truth

CINCINNATI November 23 - At the Vive Street Congregational church yesterday morning the nestor. Rev Herbert S Bigelow discussed the sub ject, What a tile Use of the Church? He chose for his text the parable of the sower maintaining that the mosimportant function of the church is to ne te mankind to progress by leading in the thought of the world on preaching the truth about the g as problems of this present life Ask the average church member said Mr Bigelow 'What is the mis

eion of the thurch? He has a readi made phrase for you. He save it is to "save souls In the theological sem inaries vouce men are taught that to be good premehers they must have s 'passion for souls' A certain mis sionary society of a church in this city reported at the end of the year "Two ouls saved and one sanctified " Is it the paramount duty of the

church to save souls? That depends upon what is meant by the phrase save them from what? From hell, of course Is it the mission of the church to save souls from help? That depends upon the location of hell Do you mean by hell some place of torment in ment of body, mind and soul that is produced in this world, by greed of gain, and slavish prejudice and bigot ry and hate by oppressive monopolis and corrupting power and bitter pov

hell But I know there is a hell on earth which man has made. Here on bellat a time and the neatest one first But there are many church members

who do not know what we mean by a sin on which to try their power to hell on earth. They are able to go to elevate the degraded and to purify the the seashore in the heat of summer depraved But the world was ready They can go to Florida or California and eat strawberries in winter They soldom come in contact with poverty From the very air they breathe they have imbibed the prejudice that pov erty is mostly the result of depravity, that for the "deserving poor there is no help but charity, that the masses who toil sie by nature unfit for a hap pier lot that the man who imposes an extra tax of two ceuts a gallon on oil and contributes a million to a univer sity is a paragon of virtue, and the in stitutions which make it possible for him to do this are ordained of God One of these more comfortable church members visited recently in Cincinnati She heard men in the street crying Coal coal She asked what it was they were selling. When told she expressed amazement that the people of Cincinnati did not buy their coal by the ton She declared she had never heard of such a thing Indeed, she was certain that in Cleveland, where she lived there was no coal sold by the bushel. This woman is typical of her class Within a narrow sphere she is generous to a fault. There is no healing for the nations in the beams of question about the gen ineness of her the tragic sufferings of the Nazarene and contribute for the preaching of the gospel to foreign parts, out of the appalling misery in her own city and constitution which g ew out of the of its cause, she is as grossly ignorant as the Australian bushman is of the

doctrine of salvation by g ace The duty of tneeburen to save souls? Yes, it is the duty of the church to

while such bands are few and weak and everywhere through the city churches, often costly edifices, relig expenditure of wealth and energy All the reformers in the c ty could not contribute for their work what is paid in a year to one of these clergymen Fancy how things would begin to move if this tremendous energy were direct ed toward the solution of the problem of poverty! If all the thought and sentiment and power of wealth were

be the subjects of this very misery to all eternity

As long as men bel aved in that sor of a God, they naturally expected the and we shall fully realize the truth of church to help them flee f om the the reach of medicine. They often say the text, Blessed is the people that wrath to come. But from the various. Oh, it will wear away, but in most cases speak at length Let the facts of the text, Blessed is the people that wrath to come But from the various sources of modern thought has come : walk, O Lord, in the light of Thy better thought of God He is still the countenance, in Thy name shall they Creator, but He is not the bungler He made a good would This world is lapt in universal law ' In His benev olence, the Creator contrived these laws so that in the keeping of them mon should find great reward. Hell on earth is due to the breaking of these laws To learn to obey them is to find

heaven here Fo teach man these laws is the mis on of the church. There is no law of the Decalogue which is more self evident than the law that the land is the inheritance of all and its monopoly clearly demonstrable than the law of

taxation which Henry George, the Newton of Pout cal Science, has revealed to the world To teach men these and all other laws which will help them to put their lives and their institutions in accord

with the righteousness of God and thus to solve the dark problems of hu nan existence—'mis I conceive to be the important duty that is left to the church

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indiges tion It is a scientific fact that all cases of heart disease, not organic are not only traceable to but are the direct result of indi-gestion. All food taken into the stomach which falls of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of heart Into Intererses with the action of the heart and in the course of time that delicate but vital organ becomes diseased.

OFFER

The GAZETTE has bought a \$50.00 scholarship from the CENTRAL COMMERCIAL COLLEGE, Cumberland, Md., and will present it absolutely free to the person who will secure the largest number of subscribers to the GAZETTE during the next six months.

The Central Commercial College is one of the best of its kind in the country.

The winner of the scholarship may choose either a Business or a Stenographic course. The Scholarship to be entered upon within one year from close of contest, unless winner is prevented from doing so by reasonable excuse.

All who take part in this contest will receive a reward. The Scholarship, of course, will be awarded to the person who secures the most subscriptions, but we have decided to remunerate all others who take up the work and are not successful in winning the Scholarship. Every contestant will be well paid for the work he or she does.

If you are interested in this unequaled offer, write to us for particulars and blanks.
